

## **Doctor Endorsements of STOP PMS.**

### **Dr. Duncan Turner OB-GYN**

***"For the last 30 years I have specialized in obstetrics and gynecology. Over that time I have had literally thousands of patients that have suffered from the debilitating effects of Pre-Menstrual Syndrome, commonly known as PMS. I began to sample STOP PMS to some of my patients and found that STOP PMS helps a women's body relieve STOP PMS in almost all cases.***

***I especially like STOP PMS not only because it works and is fast acting but because it is a healthy natural product. STOP PMS contains critical minerals, vitamins and amino acids. I endorse STOP PMS, not only does it help a women's body to eliminate all her PMS symptoms, STOP PMS helps a women's body come back into hormonal balance."***

### **Dr. Turners Bio:**

#### **Diplomas & Memberships**

- *Member, Royal College of Surgeons, 1969*  
*Licentiate, Royal College of Physicians, 1969*  
*E.C.F.M.G., 1970*
- *Licentiate, Medical Council of Canada, 1972*  
*F.L.E.X., 1978*
- *Diplomate, American Board of Obstetrics and Gynecology, 1982*
- *Fellow, American College of Obstetrics and Gynecology, 1982*
- *Diplomate, Accreditation Council for Gynecological Endoscopy, 1998*
- *Member, International Society for Gynecologic Endoscopy*
- *Member, American Association of Gynecological Laparoscopists*
- *Member, Society of Laparoendoscopic Surgeons*
- *Lifetime Member, Australian Gynecological Endoscopy Society*
- *Member, European Society of Gynecological Endoscopy*
- *Fellow, Royal Society of Medicine*
- *Member, Board of Directors, American Association of Office Endoscopy*

---

#### **Postgraduate Training**

- *House Officer in Medicine*  
Barnet General Hospital, Hertfordshire, England, December 1969 - June 1970
- *House Officer in Surgery*  
Bolingbroke General Hospital, London, England July 1970 - December 1970
- *Resident in Pediatrics*  
Vancouver General Hospital, Vancouver, British Columbia,
- *Chief Resident, Obstetrics/Gynecology* University of Colorado Medical Center, Denver, Colorado, USA October 1977 - October 1978
- *Course in Diagnostic Hysteroscopy, University of Southern California, Los Angeles, California, USA 1985*

- Canada January 1971 - January 1972
- *Resident in Obstetrics/Gynecology, University of Colorado Medical Center, Denver, Colorado, USA, October 1975 - October 1977*
- *Laser and Endoscopy Course 1987*
- *Clinical Course in Surgical Pelviscopy University of Kiel 1987*
- *Sclerotherapy & Endovenous Laser Treatment 2003*
- *Certification in use of DaVinci Laparoscopic System 2006*
- *Course in Vaser Liposuction treatments 2006*

### **Present Appointments**

- *Chair, Institutional Review Board De La Vina SurgiCenter, Santa Barbara, California, USA*
- *Director Santa Barbara Obstetrics & Gynecology Santa Barbara, California, USA*
- *Director Santa Barbara Fertility and Endoscopy Center Santa Barbara, California, USA*
- *Director Department of Gynecology De La Vina SurgiCenter, Santa Barbara, California, USA*
- *Active Staff Santa Barbara Cottage Hospital Santa Barbara, California, USA*
- *Courtesy Staff Goleta Valley Community Hospital Santa Barbara, California, USA*
- *Advisory Board Patton Medical Corporation, Austin, Texas, USA*
- *Advisory Board, American Medical Systems*
- *Advisory Board, Surgrx Corporation, California USA*
- *Board Member, International Society of Gynecological Endoscopy, second 4 year term*

### **Research, Contributions & Presentations**

- *Renal Transplantation. Medical College of Virginia July-September 1968*
- *Malabsorption Syndromes in Children. Royal Jubilee Hospital Victoria, British Columbia, Canada 1971*
- *Management in Breech Presentations in Ten Years at Denver General Hospital. 1978*
- *Robotics in Gynecological Surgery. ACOG.AGM Seminar May, 1994*
- *Obstetrical Emergencies Emergency Medical Systems of Santa Barbara County. Santa Barbara, California, USA, October, 1994*
- *Robotics and Gynecological Surgery. AAGL October, 1994*
- *Avoiding Trocar Related Injuries. Robotic vs. Human Assistants in Laparoscopic Surgery. World Congress of Gynecological Laparoscopy Jerusalem, Israel, February, 1995*
- *Avoiding Trocar Related Injuries. Robotic vs. Human Assistants in Laparoscopic Surgery. International Society of Gynecological Endoscopy London, England, February, 1995*
- *New Instrumentation in Micro-Endoscopy. First World Congress of Micro Endoscopy and Fertility Promoting Surgery Santa Fe, New Mexico, August, 1995*
- *Solo Surgery with the Aid of Robotic Assistant. Medical Robotics and Computer Assisted Surgery, Baltimore, Maryland, November, 1995*
- *Solo Surgery with the Aid of Robotic Assistant. TeleMed, London, England, November, 1995*
- *Solo Surgery with the Aid of Robotic Assistant. Micro-Endoscopy as an Adjunct Operative Laparoscopy AAGL, Orlando, Florida, USA November, 1995*
- *The Role of Robotics in Gynecological Laparoscopy. The Radially Expanding Veress Needle. International Congress Hong Kong, China, December, 1995*
- *Pelvic Floor Relaxation. Abnormal Uterine Bleeding. Primary Care Physicians Seminar Santa Barbara, California, USA, April, 1996*
- *Robotics. Laparoscopic Ultrasound – Clinical Applications. The Radially Expanding Veress Needle. International Society for Gynecological Endoscopy Chicago, Illinois, USA, April, 1996*
- *Robotic Laparoscope Control Evaluation. Laparoscopic Ultrasound – Clinical Applications. The Role of Virtual Reality, Computers and Robotics in Gynecology. Avoiding Laparoscopic Complications. International Congress for Gynecological Endoscopy Paris, France June, 1996*

- *Laparoscopic Intraoperative Ultrasound*. Surgeons Postgraduate Course Society of Laparoendoscopic New York City, New York, USA October, 1996
- *Laparoscopic Intraoperative Ultrasound. The Role of Virtual Reality, Computers and Robotics in Gynecology. Microendoscopy as an Adjunct to operative Laparoscopy. Laparoscopic Ultrasound - An Evaluation*. AAGL Chicago, Illinois, USA October, 1996
- *Avoiding Laparoscopic Complications Through New Technology. Virtual Reality, Computers and Robotics in Gynecology*. International Congress Portoroz, Slovenia October, 1996
- *Laparoscopic Intraoperative Ultrasound. Office Ultrasound for the General Surgeon and Gynecologist*. Society of Laparoendoscopic Surgeons, Postgraduate Course December, 1996
- *Intraoperative Laparoscopic Ultrasound. Computers and Robotics in Gynecology. Avoiding Complications Through New Technology*. International Congress for Gynecological Endoscopy Greifswald, Germany March, 1997
- *Microendoscopy and New Technologies in Gynecology*. Program Chair Santa Barbara, California, USA June, 1997
- *The Clinical Experience of Robotics in Gynecological Endoscopy*. The Operating Room 2000 Santa Barbara, California, USA, June, 1997
- *Laparoscopic Ultrasound and Evaluation. Computers and Robotics in Gynecological Surgery. Utilizing New Technology to Avoid Complications in Laparoscopic Surgery*. International Congress of Gynecological Endoscopy Rome, Italy, June, 1997
- *Robotics and Computers in Gynecological Endoscopy. Avoiding Laparoscopic Complications Through New Technology*. Australian Gynecological Endoscopy Society Sydney, Australia, August, 1997
- *Robotic Laparoscope Control – Voice Activated. An Alternative Entry System in High Risk Patients. Infrared Ureteral Catheters – An Evaluation*. Postgraduate Course in Microendoscopy AGL Seattle, Washington, USA, September, 1997
- *Robotic and Gynecological Endoscopy -Where Do We Go From Here? An Alternative Access System in High Risk Patients. 30 Minute Solo Surgery - Bladder Neck Suspension*. European Society For Gynecological Endoscopy Birmingham, England, December, 1997
- *Clinical Demands in the Operating Room 2000. New Technology in Microendoscopy. Laparoscopic Ultrasound and Evaluation. An Alternative Access in High Risk Patients. Robotics and Laparoscopy - Where Do We Go From Here? 30 Minute Bladder Neck Suspension Solo Surgery. Infrared Ureteral Catheters and Evaluation*. International Society For Gynecological Endoscopy, Sun City, South Africa, March, 1998
- *Integrating New Technology into Gynecological Office Practice*. ACOG AGM , May, 1998
- *The Past, The Present and The Future. Laparoscopic Treatment of the Adnexal Mass*. Symposium Medicus Innovations in Gynecology San Francisco, California, USA, August, 1998
- *The Past, The Present and The Future. Laparoscopic Treatment of the Adnexal Mass*. Symposium Medicus Innovations in Gynecology Hilton Head, South Carolina, USA, August, 1998
- *The Past, The Present and The Future. Laparoscopic Treatment of the Adnexal Mass*. Symposium Medicus Innovations in Gynecology New York City, New York, USA, September, 1998
- *The Past, The Present and The Future. Laparoscopic Treatment of the Adnexal Mass*. Symposium Medicus, Innovations in Gynecology, Phoenix, Arizona, October, 1998
- *The Radially Expanding Access System - Setting New Standards. "Avoiding Laparoscopic Injury Complications in High Risk Patients*. AAGL, Atlanta, Georgia, November, 1998
- *The Radially Expanding Access System - Setting New Standards* European Society for Gynecological Endoscopy, Switzerland, December, 1998
- *Pelvic Ultrasound - A Course in Ultrasonography. Bladder Neck Suspension with Robotic Assistance. Course in Urogynecology*. Society of Laparoscopic Surgeons, San Diego, California
- Consensus Meeting in Middlesbrough, United Kingdom March, 1999
- *The Radially Expanding Access System - Setting New Standards*. International Society for Gynecological Endoscopy, Montreal, Canada May, 1999
- *The Benefits of Laparoscopy as an Adjunct to Vaginal Hysterectomy. Laparoscopic Treatment for the Suspicious Adnexal Mass. The Past, Present and Future of Gynecological Surgery. Safe Laparoscopic Entry*. Australian Gynecological Endoscopy Society, Adelaide, Australia May, 1999
- *Symposium on Fertiloscopy - A New and Efficient Tool for Infertility Evaluation*. European Society for Human Reproduction and Endocrinology, Tours, France June, 1999
- *Faculty Course in Fertiloscopy*. Clermont-Ferrand, France June, 1999
- *Safe Laparoscopic Entry*. The Past, Present and Future of Gynecological Surgery. ISGE Regional Meeting, Cairo, Egypt September, 1999
- *The Past, Present and Future of Gynecological Surgery*. European Society of Gynecological Endoscopy, Stockholm, Sweden "Safe Laparoscopic Entry" September, 1999
- *Safe Laparoscopic Entry. A New Method for Laparoscopic Entry in High Risk Patients. Fertiloscopy - New and Efficient Methods for Infertility Evaluation. Nuclear Dye Staining by Methylene Blue - A New Evaluation of Fallopian Tubal Function*. AAGL Annual Meeting, Las Vegas, Nevada, November, 1999

- *A Combination of Old Techniques and New Technology to Avoid Laparoscopic Entry Complications in High Risk Patients.*
- *Fertiloscopy - A New and Efficient Method of Evaluation in Infertility Patients.*
- *Nuclear Dye Staining by Methylene Blue - A New Evaluation of Fallopian Tubal Function.* Society of Laparoscopic Endoscopic Surgeons, New York, December, 1999
- *Making the Case for the Radially Expanding Access System.* World Congress on Gynecological Endoscopy, Tel Aviv, Israel, March, 2000
- *Safer Technologies for Primary Entry. Computers and Robotics in the Operating Room.* Annual Congress of the International Society for Gynecological Endoscopy, Gold Coast Queensland, Australia April, 2000
- *Safer Laparoscopic Entry for High Risk Patients.* Endometriosis 2000, London, England May, 2000
- *Safe Entry Techniques of Laparoscopic Surgery.* Annual Course in Laparoscopic Surgery, Ljubljana, Slovenia May, 2000
- *Computers and Robotics in Laparoscopic Surgery.* Mexican Gynecological Endoscopy Society Annual Meeting, Cancun, Mexico July, 2000
- *The Radially Expanding Access System.* FIGO World Congress, Washington D.C. September, 2000
- *Safe Entry Techniques and Avoidance of Complications.* Fertiloscopy - A New Diagnostic and Therapeutic Tool. ART in Y2K, India October, 2000
- *Computers and Robotics in the Operating Room 2000.* AAGL Annual Meeting, Orlando, Florida, November, 2000
- *Safe Entry Techniques,* May 2001, Rome, Italy
- *Consensus Meeting in Surgical Training,* Perth Australia 2002
- *Hysterectomy 2020 - Key note lecture,* Australia Gyn Endoscopy Society, Melbourne, May 2003
- *Surgrx Enseal System for Sealing and Cutting Vessels,* AAGL 2004
- *Trans Cervical Sterilization Techniques,* ISGE World Congress, London 2005
- *Guest Lecturer,* Southwestern OBGYN Society Annual Meeting Park City UT September 2005
- *Comparison of Cutting and Sealing instruments*
- *AAGL Annual Meeting,* Chicago November 2005
